MEET US AT.....

10..9..8..7...It's countdown to Biotrinity!

PSL will be hosting a booth at **Biotrinity** for the first time. We welcome you to visit us there. Tim, will also be attending **AACR** and **FASEB**. To arrange a meeting contact: melinda@pivotalscientific.com

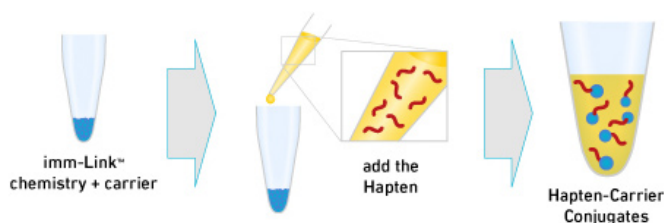

April 2nd - 6th **AACR**, Orlando
April 10th - 12th, **FASEB**, Washington
April 12th - 14th, **Biotrinity**, Newbury, UK

FEATURE

Innova Biosciences
first for Antibody Labeling

Innova Biosciences - introduce three new **Immunogen Kits** designed to easily and conveniently link antigens to carrier proteins prior to immunisations.

imm-Link™ Sulfhydryl Immunogen Kits

imm-Link™ Carboxyl Immunogen Kits

imm-Link™ Amine Immunogen Kits

LATEST NEWS.....

Everest Biotech - launches the novel **AntibodyXchange** programme, where clients can exchange "dud" antibodies for antibodies that work.

2BScientific - introduces exclusively to the European market, **Ceres Nanosciences**, sample preparation solutions for downstream Protein Analysis.

Innova Biosciences - release two new **Purification Kits** to help purify antibody serums and tissue cultures prior to antibody conjugation.

Nordic Immunological Laboratories - have recently been accredited with ISO 9001 and ISO 13485 for the manufacture of all of their products.

LifeSpan Biosciences - introduce another 190 Antibodies to their IHC-Plus range, tested for use on paraffin reactive sections - now 28,000 Antibodies for IHC!

OxFabs - introduce a new Antigen design service for Hybridoma development.

Oxford Expression Technologies - have joined forces with ProteoNic, combining UNic™ with flashBAC™ protein expression platform.
